

Conference on Chiropractic History, 2005

The Association for the History of Chiropractic (AHC) will hold its 25th annual **Conference on Chiropractic History** during June 11-12, 2005 on the campus of the Southern California University of Health Sciences (LACC). This is the Association's silver anniversary, and a very festive meeting and history paper session are anticipated.

Those wishing to submit a paper for presentation at the Conference are reminded that the deadline for sending your paper to the Executive Director, Alana Callender, M.S. (contact information below), is January 1, 2005. A cash prize of \$500 is made available and awarded by the AHC for the best paper presented at the Conference by a non-student. A cash prize of \$500 is made available by the National Institute of Chiropractic Research and awarded by the AHC for the best paper presented by a student at the Conference. Information concerning manuscript style and submission requirements are found in the most recent issue of *Chiropractic History*, the AHC's scholarly journal. Authors of papers accepted for presentation at the Conference are not required to submit their papers to the editor of *Chiropractic History* for consideration to publish, although this is encouraged.

The AHC is a non-profit, membership society founded at Spears Hospital in Denver in 1980. Our mission is the discovery, dissemination and preservation of the saga of chiropractic. The AHC held its first annual Conference on Chiropractic History at the Smithsonian Institute in Washington, D.C. in 1981, and has held similar conferences each year since at various chiropractic colleges or in conjunction with the annual meeting of the Association of Chiropractic Colleges. Details about the upcoming conference can be obtained from the AHC's executive director, or by checking the AHC website at www.chirohistory.org.

The AHC publishes a scholarly journal, *Chiropractic History*, in which chiropractors and interested observers contribute their expertise to telling and interpreting the rich lore of the profession. The journal is published twice per year. *Chiropractic History* is distributed to all members of the AHC as a membership benefit. Membership in the AHC can be obtained by sending your name, address and check for \$75 (\$30/year for students) to the AHC's executive director. Corporate membership should be discussed with the AHC executive director:

Alana Callender, M.S., *Executive Director*

Board Members & Friends

Folks,

Attached file in Microsoft Word ("AHCpromo.doc") is a revised news release concerning our 25th annual Conference on Chiropractic History at LACC/SCUHS during June 10-12. Please disseminate wherever appropriate (college mags, state journals, professional meetings, classes, etc.). I'd sure like to see us have a good turn out. In the future, this sort of info will also be available at our website. :-)

Thanks,

Joe

Robert R. Reed, Santa Ana

1935 NCA Convention held at Hollywood Roosevelt Hotel, summer (JUL-Aug) Charles Cale, ND, DC honored as a "pioneer" in the profession. (FN: Joseph C. Keating, Jr., Ph.D. Chronology of the LACC, 9/23/97 version, p. 70)

Hi Brian,

Hi Brian,

Date for Charles Cale's birth are in attached file in Microsoft Word ("Cale.doc"): August 23, 1870.

Sorry, I never looked for corporate charter for CNP&S.

I guess you know that the AHC's annual Conference on Chiropractic History will be at LACC in June 2005? Hope to see you there. :-)

Joe

In a message dated 9/15/04 11:22:30 AM, doctorsmith@earthlink.net writes:

Joe,

I was looking through your LACC chronology notes and could not find mention of a birthdate for Charles Cale. I found the 1870/1 notation only. I thought I had a transcript of his death certificate, which may mention it (however death certs are notoriously inaccurate). Do you know what it is?

LACC Alumni Association supported my proposal to purchase a grave stone for Charles.

I hope to have an article written focusing on the Reed chiropractic family, published in conjunction with the grave stone purchase. I wish Bob had told me what his niece Patricia's last name was, the last surviving Reed, DC.

Have you ever found any corporate papers for the College of Naturopathic Physicians & Surgeons? The corporate papers at the Sec of State for SCCC makes no mention of it.

Thanks.

Brian

James,

James,

I had time to proof the 3rd draft of the Cale article and found 3 corrections to the 1st draft that do not appear in the 3rd; plus 1 new correction.

Thanks,

Brian A. Smith, DC

Page 6; 2nd column, last sentence should read:

On 23 June 1913 their twenty-three-month-old son Paul died from "intestinal indigestion." He was buried in the Rosedale Cemetery in Los Angeles where his grave remains unmarked (46).

Page 16, 1st column, 2nd paragraph: No (") at end of last sentence:

... was not reversed.

Page 18, 1st column, 1st paragraph, after (Figure 30):

The amount of coverage this incident received was not commensurate with the reluctance the press had demonstrated in the past to cover happenings in the field of chiropractic.

Page 28, 1st column, endnote 46:

46. Paul Cale, Standard Certificate of Death, number 3367, Los Angeles County Clerk, 24 June 1913.

Hi, Brian,

Hi, Brian,

At the August Executive Committee of the Alumni Association Board of Directors, I presented three proposals for consideration. Only those that received the support of the Executive Committee were to be presented to the Full Board at our meeting on September 9th.

Of the three proposals I presented the only one that received the support of the Executive Committee, was your request for a tombstone for Dr. Cale. Yesterday at our Full Board meeting I presented the proposal to the Full Board and everyone agrees that we want to purchase a headstone for Dr. Cale. The only bone of contention is that half of the Board members want the Association to purchase the headstone, while the other half feels that the University should pay part of the cost. Either way Dr. Cale is going to get a headstone!

My next task is to contact Inglewood Cemetery and get information on the headstone (sizes, colors, cost, etc) and present it to the Board in November for final approval. The thought was to see if we could get a larger headstone that would allow for more wording on it. The smaller ones may just have room for his name with the birth and death dates. We want to insure there is enough room to put "Founder, Los Angeles College of Chiropractic" and possibly something like "Educator, Healer, Advocate".

Do you know the name of the person at Inglewood Cemetery who gave you the information on the headstones? I can even drive out to see the styles and designs in person. I would actually like to see the location of the unmarked grave of Dr. Cale.

Thanks for not giving up on this issue. Now that we know that no living family member will consider the University to be tampering in a family situation, we can move on to see that the founder of the Los Angeles College of Chiropractic is honored and remembered for his dedication to quality chiropractic education.

Best wishes,
Sheila Hanes, DC
SCU/LACC Alumni Affairs

Hi, Brian,

Hi, Brian,

I wanted you to know that your proposal did not make it to the floor for discussion on April 1st at the Board meeting. We got started late as the Alumni President got caught in traffic and a lot of the Board members had questions for Dr. Phillips after he gave his u-date on the Veterans Administration project. Your proposal is not a simple straight forward one and at the end as we were rushing to get done I pulled the proposal to present at the next meeting. I want it to have the best advantage that it can in getting accepted.

Sheila Hanes
SCU Alumni Affairs

Hi, Brian,

Hi, Brian,

I hope you had a wonderful trip to Ireland. My cousin is there right now. One of these days I hope to get there too. I spent the holidays in Kentucky and New Jersey—the weather was not any worse than what we are having here right now. If this rain keeps us we will be as green as Ireland and Seattle.

This morning I went to Inglewood Cemetery and ordered the headstone for Dr. Charles Cale. It should be ready in about two months. I will need to set a day for our “unveiling” of the headstone and dedication. Dr. Phillips has a busy travel schedule the first few months of 2005 so I will have to see what day we can get something set. I figure that a Thursday would be the best for my Board members as most are out of the office on Thursdays. Is that a day you are out of the office too?

I apologize in that I have not had time to get to the Court House. Things got very busy in November and December and it seemed like I never had a half day free on a week day to get there. However, January is a little slower so I should be getting there soon. Once I found out where Linnie Cale is buried I will make a trek to her cemetery also to see what I can find out.

Your passion to get a headstone for Dr. Cale has been rewarded. It should be here soon. Now I just hope Linnie has something “over her head”!

Happy New Year!
Sheila Hanes

Folks,

Folks,

For those of you attending the AHC's 25th anniversary Conference on Chiropractic History at SCUHS/LACC in June:

I'll be bringing a DVD with many dozens of digital files (in MS Word) on chiropractic history, plus the PowerPoint presentations that I will make at the Conference. If you have a laptop computer with DVD port and would like any or all of these files, just bring your laptop along. :-) Special requests (e.g., digital photo images) gladly provided.

I expect to arrive in Whittier on Sunday, June 5, and depart the following Sunday, June 12. So if you're arriving early, look me up - I'll be staying at the Radisson all week and working in the LACC library.

Dr Smith,

Dr Smith,

Sorry about the delay. Congrats on an excellent piece on Storey. AOL has a geneology section that lists social security payouts - using this I typed in earl cale and came up with: Earl Cale born 11/12/07 died 2/87, payments mailed to 91204 Glendale st, LA,CA. The earl cale I ran into at the Orange County coroners office was not the man you seek.

How about this record to confuse the already-complicated picture: the CNP&S preceding the CCP&S by almost 10 years

How about this record to confuse the already-complicated picture: the CNP&S preceding the CCP&S by almost 10 years!

Thanks for the picture of Astrid Reed. I hadn't seen that one. Can you recheck for others though as I have an e-mail from Bob Reed stating that he sent you a picture of Astrid teaching at the college in 1928-9. He called the file EvaMaeLewis-Student.jpg. He may have sent another of the Reed family taken at Thanksgiving 1935 that he called Nov_25_1935.jpg. Thanks. At one point I had these two myself and if I find them, and you don't have them, I will be glad to send them to you.

I was on the CA Sec of State's website last night (when I found the CNP&S charter) and found no online record of a corporation with the name of, or similar to, the California Chiropractic Education Foundation. I wonder why.

Brian

Well, I found the photos I asked you about, let me know if you want me to send them to you, but I think you may have them

Well, I found the photos I asked you about, let me know if you want me to send them to you, but I think you may have them.

Can you tell me if your JMPT article on research and science (1995) had any reference to the Emerson University Research Council, or its 'parent' the CULP Research Council, or its merging/transition into the LACC botanical medicine group?

Re: the CNP&S charter..I noticed it was incorporated within a couple months of the Pas CoC... and following the papertrail..it seems to have been affiliated with the HCC, successor to the Pas CoC, in the 1950s - assuming the HCC and the "Hollywood College" were one and the same. Don't know, yet, for sure if the CNP&S and the Pas CoC were affiliated in 1922, nor explain how the separation from that school occurred when it became associated with the CCP&S.

Thanks, Brian

Hi, Brian,

I will call you when I get back from my trip next week and let's meet at the cemetery and take a look at the area where the grave is located. We can look at headstones then too.

Like you I have wondered why there was no headstone but who knows the dynamic in the Cale family at the time. It could be that the Cale children blamed Charles for the failure of the marriage and they did not feel it was their responsibility to do something.

At least Dr. Cale will get a headstone now.

Sheila Hanes

Subject: Re: Inglewood Cemetery

In the meantime I'll make some inquiries around to see if we can scare up Charles' birthdate.

For the stone I had originally thought:

Charles Cale, N.D., D.C.

[birthdate] to March 27, 1937

Founder, Los Angeles College of Chiropractic

40 characters would be taken up by the first two lines. The LACC line would be 114.00 @ 3.00/character.

I like the suggestion "Educator, Healer, Advocate"

I wonder why a stone was never purchased, after all Linnie was still alive - I guess there were hard feelings there. His 3 children were also living...I would guess that the children were closer to Linnie..Ruth worked with her and the 2 sons had chiro businesses that worked closely with LACC. It would be interesting to see what the

different local chiro papers said at the time..especially LACC's.

Hope you trip is a pleasant one.

Brian

Thank you, Brian. I look forward to hearing form them. I will be out of town next week but it would be great to meet you at Inglewood and visit the gravesite together some time. I'll contact you when I get back and get caught up with things.

The large headstone would be preferable (at least for me) as we could put more text on it. I'll price out both sizes with the text and see what the Board wants to do. Maybe we could work together on ideas for the text on the headstone.

Best wishes,
Sheila Hanes

To: Sheila Hanes

Subject: Inglewood Cemetery

Dear Sheila,

I took the liberty of e-mailing a request for grave stone options and pricing to be sent to you directly at the college. I included your e-mail address on the request, so don't be surprised to hear from them. Their web address is: <http://www.inglewoodparkcemetery.org>

I hope you don't mind. The counselor I spoke with in 2001 was Kyle Walker.

At that time there were two sizes available for the single markers: 12 x 24 and 16 x 28. The pricing then was \$510.00 for the smaller and \$640.00 for the larger, however I was informed that a price increase was set for 2002, bringing the cost of the larger up to \$900.00 at least. The quoted cost included the marker with 40 characters engraved, the setting of the marker at the site, care and maintenance, and tax. For engraving in excess of the 40 characters, the cost was \$3.00 per character.

In going through the notes I have from Joe Keating and elsewhere, I don't find an exact birthdate, or even exact birth year (1870 or 1871), but I believe that could be found, if it isn't already available. I have his date of death as March 27, 1937.

Charles is buried in "F plot" on the Prairie Avenue side of the cemetery if you want to

locate the general area on the map available on their website.

Sincerely,

Brian A. Smith, DC

Hi, Brian,

Hi, Brian,

Our Assistant Dean of Academic Support Services, who is responsible for all registrar services on campus, forwarded your message to me as she wasn't quite sure how to answer it herself. I just spoke to Tracey and it appears that years ago all records from the 18 colleges that amalgamated with LACC were combined with the older LACC records in the Registrar's archives.

I never asked but do you have a copy of the *History of LACC* that was published a few years ago? When Joe Keating taught at LACC he had plenty of time to dig into all of the nooks and crannies of the campus and I am sure that the Registrar's archives was one of the places he spent untold hours. I suspect that all of the information contained in the Registrar's archives has already been compiled by Joe and published in the history book. I know that he sites references to both the Cale College of Chiropractic and the Cale College of Naturopathy as the colleges they became over time eventually amalgamated with LACC. I think the history book may be your best source of information on Cale's two other colleges.

If you don't have a copy of the book, I have some for purchase in my office. At \$25 a piece they are a bargain. Or you can receive a complimentary copy if you become a Lifetime member of the Alumni Association (\$500).

Dr. Mandy Rhodes,

I am currently writing an article about Charles Cale, DC, founder of LACC and hope that you may be able to offer some suggestions for the following questions:

Are you aware of the existence of any records in your possession pertaining to Dr. Cale's two later colleges: Cale College of Chiropractic and the Cale College of Naturopathy? Specifically I am trying to

Hi, Brian,

locate any lists of students/graduates, as well as faculty, for the years 1927, 28 and 29.

As these two schools were 'purchased' by the California Chiropractic Educational Foundation, it would seem logical that the CCEF would actually be the repository for such records. Is there a repository the CCEF maintains, to your knowledge? If so, would you have a contact for me?

I plan to be on-campus on Wednesday, October 6th and will come to your office if you think you may have records that are pertinent. Thank you very much.

Sent: Tuesday, October 05, 2004 10:35 AM

Subject: Student/faculty records

Attn: Susan Davis

I am writing a biography on two students of the Indiana State Normal School who met at the school and married in 1895. I do not know if your office would maintain records this far back or if there is a school archives that may be able to verify their status as students. They are: Charles A. Cale (born 30 August 1870) and Linnie Facemire (born 11 October 1874). They were both involved with the school, either as students in the early 1890s or as faculty until 1900 when they moved to Los Angeles. Linnie was at ISNS from 1893 - 1900 and was, apparently, involved with the YWCA there as well.

After moving to Los Angeles, Charles would become very prominent in the chiropractic profession, opening the Los Angeles College of Chiropractic in 1910, which, today, is one of the largest chiropractic colleges in the world. Linnie Cale would also become a chiropractic doctor and assume the position as the colleges Dean after separating from Charles in 1922-3; a position she would retain for over 25 years. She remained on the schools Board of Trustees until her death in 1958.

Charles, meanwhile, would found two more colleges: the Cale College of Chiropractic and the Cale College of Naturopathy. These two colleges would be amalgamated with several other small colleges into the Southern California College of Chiropractic in 1946; finally absorbing his original school, as well as it's name, in 1947 - LACC.

I am writing a biography on the Cales to be presented at the 25th annual convention of the Association for the History of Chiropractic which will occur in June, 2005 on the campus of the LACC; as well as published in the Journal of Chiropractic History. Both are hoped to coincide with the unveiling of a head stone for the grave of Dr. Charles Cale, which has been unmarked since his death in 1938.

I would appreciate any information you may be able to provide that would substantiate their status as students and/or faculty at ISNS. Thank you very much.

Sincerely,

Dr. Brian A. Smith, D.C.

Sent: Saturday, October 23, 2004 11:04 AM

Subject: Thank you

Received the photocopies and wanted to thank you very much and to let you know that your contribution will be acknowledged in the final article, slated to be published in the Journal of Chiropractic History, June 2005; and presented at the 25th annual convention of the Association for the History of Chiropractic, also in June 2005 in Southern California.

Can you tell me the extent of the holdings: Annual Catalogues for what years, Commencement Announcements for what years? The reason I ask is that if the collection is complete for the 1891 to 1905 time period then certain assumptions may be made regarding Linnie Facemire Cale. On the other hand, if the collection is not complete then the assumptions to be made are different. I find it interesting that Charles is listed in the 1903-04 alumni section of the catalogue, but Linnie is not. If you do have the Commencement Programs for 1902, 1903 and 1904 - would it be possible to check those (if you already haven't done so) to see if Charles Cale, after submitting the necessary paperwork, obtained a diploma? I will also check to see what libraries in the Terre Haute area may have some of the records as I know they are often the repositories where many items such as these end up.

Depending on your answers, I may try to follow up on the records of the Los Angeles Normal School in possession of UCLA, and others in the area, to see if he "transferred" if such a thing was possible.

Doubtful that this happened as both Linnie and Charles were quite proud of their ISNS affiliation and would continually refer to it throughout their lives.

If there is no diploma mentioned, maybe ISU would be interested in bestowing a posthumous, honorary diploma in conjunction with the June 2005 chiropractic activities planned? I believe that the 1910 founding, and 1911 incorporating, of the Los Angeles College of Chiropractic, which Charles owned and operated until 1922 when Linnie took possession as a settlement in their divorce, followed by Linnie's continued involvement of Dean of that institution for 20 years, as well as being an instructor, and ultimately being appointed to the Board of Trustees; would probably satisfy the requirements for such an award, albeit not within the two year time frame mentioned in the commencement program. Beyond that, I hope to document Charles' teaching in public schools between 1900 and 1908 in Redlands, CA (thanks to your information); and perhaps Linnie's as well.

Thank you again for your digging through the archives.

Sincerely,

Brian A. Smith

Brian,

Boy, this could mean that Linnie is in an unmarked grave also. I definitely will try to get to the Court House this week. Most interesting that Linnie's mother and her ex-husband (Charles) are buried at the same place.

Sheila

Subject: Re: Cale Headstone

Great to hear from you. I still haven't found anything on Linnie - but her mother is in an unmarked grave at...guess...Inglewood! Of course, now that there's two unmarked graves, it begs the question...perhaps they did not want to have markers?! Charles & Linnie's parents moved to Redlands at the same time (1901-ish). The Cale's picked up again in agriculture..this time oranges! Linnie's father had passed away before the move.

I can work a Thursday off if need be, no problem. Sounds like March? Ireland was great ..think I may have found my ancestors village.

Went to Vegas for New Year's where my husband and I were on stage at the Paris Casino's big New Year's Eve party..we do a type of performance

art/dance that the headlining singer wanted us to do...lots of fun.
Don't know when I'll get back to NJ (Trentonian here)....heading to FL
to meet up with all my siblings at my parents ..the first time in 10
years that I'll see my chiro brother!
Hope your holidays were enjoyable.

Brian

~

~Hi, Brian,

~

~I hope you had a wonderful trip to Ireland. My cousin is there
right now. One of these days I hope to get there too. I spent the
holidays in Kentucky and New Jersey-the weather was not any worse than
what we are having here right now. If this rain keeps us we will be as
green as Ireland and Seattle.

~

~This morning I went to Inglewood Cemetery and ordered the
headstone for Dr. Charles Cale. It should be ready in about two months.
I will need to set a day for our "unveiling" of the headstone and
dedication. Dr. Phillips has a busy travel schedule the first few months
of 2005 so I will have to see what day we can get something set. I
figure that a Thursday would be the best for my Board members as most
are out of the office on Thursdays. Is that a day you are out of the
office too?

~

~I apologize in that I have not had time to get to the Court
House. Things got very busy in November and December and it seemed like
I never had a half day free on a week day to get there. However, January
is a little slower so I should be getting there soon. Once I found out
where Linnie Cale is buried I will make a trek to her cemetery also to
see what I can find out.

~

~Your passion to get a headstone for Dr. Cale has been rewarded.
It should be here soon. Now I just hope Linnie has something "over her
head"!

~

~Happy New Year!

Brian,

I am no longer at the YWCA but I am sure there is a way to find out. They have an interum at this time and I am not sure how much help she could be but you might want to call her...her name is Sandy Markert. If she is not there ask

for Cheryl Dorrough, she would be in charge when Sandy is not there. The number is 812-232-3358.

Good luck,
Becky Buse

Subject: Re: success

Great information - thanks. Heading to the LA County archives shortly to review the Speros murder trial records. Odd that LA County Sheriff's records

in homicide make no mention of the murders. Trying to find out if another

law enforcement agency used "deputy sheriff's" at that time. I'm also going

to see if I can somehow "accidentally" get the adoption records too, the same way I "accidentally" got the reference - by asking! Then to the library

to follow up on a few things there, including Redlands city directories. I've got the Board of Education out that way looking through their records

for Cale information. Also hope to have the "area" that both Linnie and Charles studied in while at ISNS...the university archivist supplied that "group" numbers while the county libraries archivist found a history of the ISNS in which the area of study is correlated with the group numbers.

Hi, Brian,

Yes I did find Frank Karteris in the 1930 census. Frank and his wife Elsie Karteris were living at 11351 Broadstreet, Detroit, MI, (Wayne County) in 1930. Frank was listed as 41 years old and Elsie as 42. They were married when they were 38 years old. Frank was born in Greece and was listed as a wholesale merchant. Elsie was born in Kansas and her parents were both born in Virginia. She is listed as a nurse working in a hospital. They appeared to be living by themselves as no one else was listed at their address.

The person you found in Chicago is the only Anthony Speros in the 1930 census the right age. He was living with his brother Bill and a roomer named Theo H. Markules. Anthony was listed as the head of household, even though he was only 27 years old while Bill was listed as 34 (Theo was 35 years old). All three were listed as "Single" and were born in Greece. Anthony was an automobile salesman while Bill was listed as a salesman in a fruit shop. Theo was a barber and worked in a barbershop. It looked like they may have lived in a large rooming house or apartment building as there were many individuals at the same address who came from a variety of states and countries. Very international place.

At this point in time you are indeed the "Chares Cale Expert". You are finding some great stuff. The connection between Frank Kateris and the children (George and Florence) is puzzling. And why did the Reed family let the children be adopted out to a Greek family. It seems to be one mystery after another.

This is great fun!

Subject: RE: success

Hope the car is running well. As far as Charles' degree from Indiana, I think he actually did obtain it. He was one of the participants in the June 1900 commencement exercises, of which approximately one-third are listed in the same category as Charles - those requiring 2 or less credits to complete the requirements and the remaining credits are attainable by the end of the summer session. To date, the archivist has not found Linnie in any commencement program, however, I am under the impression (which I will verify) that the listings of the commencements are far from complete. Charles first appears in the college's 1891-92 announcement and Linnie in 1892-93, which correlates with what they had said about themselves. The commencement exercises encompassed 3 categories at the June 1900 ceremonies: those in the Graduating Class entitled to certificates of graduation; those within 2 units of meeting the requirement of the first group who "may complete the course of study at the end of the Summer term, August 10, 1900"; and those from the Class of 98 entitled to receive a diploma. This last category is for graduates who have demonstrated "satisfactory evidence of professional ability to instruct and manage a school" at the expiration of two years after graduation. I am going to follow up with the archivist on the extent of their holdings - what years they have for their annual catalogues and commencement exercises. Since Charles maintained contact for a number of years, as evidenced by his listing in the 1903-04 alumni section of the catalogue, if he submitted the necessary records to obtain a diploma, the earliest possible year would have been 1902.

Regarding the Karteris family - maybe I missed it somewhere - did you locate them in the 1930 census?

Given that the adoption was in March 1936, I wonder how likely it would be that a family of Greek ancestry on the male side from out-of-state looking to adopt would be connected with 2 children, also of Greek ancestry on the father's side, within 12 weeks of the murders? In theory it actually makes sense, I just don't know about the efficiency of the adoption system on a nation-wide basis at that time. That's a topic for a different article, and one that may have little to no bearing on the chiropractic profession (unless of course George and/or Florence turned out to be chiropractors!!! Then maybe a chiropractic genetics article!)

Can you check the 1930 census for Anthony Speros 26 or 27 years old? I only found one, in "Cook County" that could be correct. The two I found for "Tony Speros" are too old to be correct. Thanks.

Hope your weekend is a good one.
Brian

= = = Original message = = =

Hi, Brian,

There must be a relationship between Frank A. Kateris and the Speros family. Frank's wife was from Kansas and her parents from Virginia so it is not likely it was through the marriage. Maybe Frank's sister married a Speros or Imogene's husband was a cousin of Frank's.

You are uncovering the answers to some mysteries (like the fact they moved to Redlands and not LA at the time of the initial move to CA), but seem to be discovering more mysteries the more you dig (no divorce record for Charles and Linnie and no marriage records for Charles and Astrid).

If Charles didn't graduate from Indiana State University I suppose Linnie never graduated either. It would be nice to think that Linnie did receive her degree even if Charles didn't, but considering the times it would not be likely.

My car is in the shop today so I will have to get to the Office of County Registrar in Norwalk some other time.

Sheila

Subject: RE: success

Thanks for the offer - the name of the petitioner for the adoption of George and Florence was Frank A. Karteris. When I did a search in the 1930 census (country-wide) only one person was found to match - in Wayne County. Detroit has a very large Greek population (still - I had the best Greek food ever in Detroit about 20 years ago when I was still an LACC student!) so Michigan would make sense in an odd way. I wonder if the Karteris family is related to the Speros in some way? I don't believe the actual court records are available to the public, as the entry in the index was lined out in red. I only found it as the employees at the county archives were not interested in supervising and they turned me loose on the index books. The court case number does not correspond to the filing system that is used to track cases now but I may be able to figure it out, given the dedication of the county employees to protecting the privacy of the court records. I was planning on going back to review the murder trial records as Charles testified

and there may be some biographical 'gems' in the testimony...i.e. when he and Astrid were married. The LA County Sheriff's Department responded with a standard 'no record found' response - not surprised there.

Was stumped in my attempt to locate divorce records for Linnie and Charles. Could not find any listing for either one in the civil proceedings index for 1920-1930.

Indiana State University records showed up yesterday confirming Linnie and Charles' attendance there, and Charles' 'almost' graduation in June 1900 (he was 1 or 2 credits shy)...plus another new found item - they did not move to LA in 1900...they moved to Redlands...granted it's a minor find but it explains why they are not found in the LA City Directories for a number of years.

Sorry to hear of the loss suffered by your co-worker. The changes one can experience in a moment can be monumental and devastating.

Brian

= = = Original message = = =

Brian,

Congratulations on finding out the information on Nan Smethurst. It appears that the Cale children may not have buried their father but they (Ruth) very were interested in the house. I suppose she was still listed as Ruth Cale in all of the probate records.

I am an Ancestry.com paid member. I plugged in the name Speros and a number of people came up with that name in the 1930's census. There seem to have been Speros all around the country. Many were first generation Greek immigrants but there were a few listed as "Negro" under "Race" which seems unusual. There were three different men listed as "Boarders" or "Roomers" in Wayne County, Michigan (one in Dearborn and three in Detroit).

Since I do have membership in Ancestry.com, please let me know what you want me to look up and I can do that research for you. Just let me know what you need.

I was going to go to Norwalk this morning to apply for the Death Certificate for Linnie. However, the husband of one of the ladies in my office died this morning in a traffic accident on his way to work so things were a little out of kilter this AM. It is almost 4 pm and I am finally getting down to some work.

Nan Smethurst, nee Fernanda B. Cale; Charles' younger sister. Reviewed the probate records today - some interesting items like the above. Found out the terms of sale of one of the schools from Hollinger & Cale to Teetzel as well.

Charles was named by Astrid as executor. He renounced in favor of his sister Nan. Then he deeded the Michigan Avenue home, which was Astrid's, to Nan. Ruth petitioned and was appointed as the executor for Charles. She then sued Nan for the house, won on the basis that the deed was fraudulent and then settled the estate, meaning she got the house as she had Guy & Earl assign their share of the estate to her for \$10.00 each.

Also, found out the name of the petitioner for adoption of the children of Imogene (Reed) Speros. George & Florence Speros: one would be 69 and the other 72. Did a quick internet search and came up empty-handed...sort of. The surname is unusual and I found only one listing in the 1930 census - but not being a paid Ancestry member - I was given Wayne County only...maybe Wayne County, Indiana? Hmmm....

Hi, Brian,

I went to the court house today and ordered Linnie's Death Certificate.
It should come in 2 to 3 weeks.

I went downstairs and was able to view Charles and Astrid's marriage
information which I sent you.

It appears that things have changed and they no longer let you view
records of births after 1905. However, Ruth was born before then so I
was able to get her information:

Ruth Elizabeth Cale was born on August 28, 1903. At the time of her
birth Charles and Linnie Cale were living at 1203 E. 22nd, Los Angeles,
CA. So Earl would have been born in 1907 in Los Angeles also.

The person recording the birth was a Lincoln Rogers with no indication
as to his degree (no MD, DO or DC on the forms.) As it was a male name I
assume he was not a midwife. I did get the form to order an
"Informational Copy" of a Birth Certificate for Paul E. Cale. Now that
we know that the Cale's were in LA by 1903 I can order a search for the
Paul Cale Birth Certificate and indicate that the possible birth date
was 1905 to 1920. I ran out of time and could not wait in line again to
order the form so I will try to go back to the Office of the Registrar
again tomorrow or Monday to turn this in.

I am writing a biography on Dr

I am writing a biography on Dr. Charles Cale (1870-1938) who stated he worked for the public schools in Los Angeles for 7 years (1901-1908) prior to entering the healing arts profession. He graduated from the Indiana State Normal School with a teaching degree in 1900 and immediately moved to Los Angeles with his wife Linnie Cale, also a graduate of the same institution. LAUSD would be the successor to whatever agency governed public education during that period of time. I would like to locate any records in your possession that would serve to verify his statement as fact. Could you please forward my request to whatever departments you think would be appropriate. Beyond actual employment records, if they exist, many school systems issued yearly "announcements" that would list the teachers employed and these are often located in libraries.

Any assistance would be greatly appreciated.

Sincerely,

Brian A. Smith, DC

Dear Ms. Buse,

I am writing a biography on Linnie Facemire who lived in Terre Haute from 1892 to 1900 while she attended Indiana State Normal School (now Indiana State University). She stated in 1928 that she was the treasurer of the school's YWCA in 1893-94. Is there any way to verify this through your organization's records? If your records are complete for this period, would it be possible to check for her involvement in 1892 and/or 1895 - 1900? In June of 1895 she married Charles Cale so any records generated after this date would probably list her as Linnie Cale.

The Cale's would become two of the most influential people in the chiropractic profession as they founded the Los Angeles College of Chiropractic in 1910 which has graduated the largest number of chiropractic doctors on the West Coast if not in the world.

Thank you very much for any assistance.

Sincerely,

Brian A. Smith, DC

Hi Brian:

Hi Brian:

I am familiar with Inglewood. My grandfather's practice was in Compton for 40 years. How about doing such an unveiling (with or without flak jackets and helmets as the neighborhood case may be) on Friday, the day before the paper presentations. Anyone who wants to go can attend as an elective event. If we get some pictures we could do a one hour photo processing and put them up on Saturday with a blurb about Charles Cale? Sort of a poster display? I do not see that we would have enough time on Saturday to get everyone over to Inglewood and back to campus.

I am glad that you took the initiative for this project to honor doctor Cale. Great idea.

Sincerely,
Bart

Subject: 2005 AHC conference

Hello Bart,

Brian Smith here, hope all is well. Alana pointed me in your direction as the contact for the schedule of events at the AHC conference in June at SCUHS.

The founder of LACC, Charles Cale, DC will be having a headstone placed on his unmarked grave as the school's administration and/or alumni association have agreed to fund the project. I am wondering if it would be desirable and possible to schedule a trip to the cemetery for the 'unveiling' of the headstone as part of the conference? The cemetery is in Inglewood, not too far from the campus. I will be heading there next Wednesday (10/6) from LACC so I will be able to obtain an accurate distance.

Brian

Hi Brian:

Insurance Portability and Accountability Act, Public Law 104-191, and DoD Directive 6025.18. It must be protected in accordance with those provisions.

I just responded to your other message before I saw this one. Did you try to send an attachment with this? It looked like there was one but somehow I couldn't open it.

I can not believe that Ruth's keeping the Cale name out of things was an accident. Something happened to create this animosity. Was Charles messing around with other women? Did he steal family or LACC money to support an alcohol or gambling habit? Did he humiliate the family or Linnie in some other way? Did it have something to do with little Earl's death? We will never know at this point I am sure. Maybe it is a good thing that Linnie donated her body to medical science or she would be "turning over in her grave" if she knew that "her" school had bought a headstone for Charles. All I can say is, if the family hated Charles and did not want him to have a headstone then they should have left some record about him being a scoundrel. All we, LACC alumni, know is that he co-founded the college that we graduated from and for that one good deed he deserves a headstone. It sure makes you wonder what went on.

Sheila

Subject: And still more

And, yes, at this late date, more information keeps making its way to me. Seems that the Cale kids, at least Ruth, carried a life-long animosity against her father. Her death certificate (or at least the online index I found) has her married name (Johnson); no maiden name, no father's name, and mother's surname as Facemire. No Cale to be found at all. Wonder what really happened to create this - or I could just have an over-active imagination!

Brian

Dear Brian,

Dear Brian,

Don't change the parenthetical. Thanks.

The CD will be fine.

I won't need a copy of the LACC release. Your schedule is fine.

Yes, definitely complete. I look forward to reading the paper. Have a great vacation.

John

Subject: Before I spend a

In the last Journal, the endnote reference numbers in the article body are parenthetical: (1) and that's the model I used. But in the instructions to authors, it says they should be superscript. Before I spend a lot of time changing from (this) to superscript and reprinting 70+ pages, do you want me to switch them to superscript?

I will be sending the package out, 2 hard copies of the following with the matching 3 files on diskette this week. The disk files, if I understand correctly are:

- (1) Author identification sheet;
- (2) Body of article, including abstract;
- (3) Acknowledgments and endnotes.

Correct?

I will include the assignment of copyright. There are 2 other files that I need to send:

- (5) Photographs (all in .jpg format)
- (6) Titles to appear in journal for photos; and credit (if needed) for photos. Only one has a copyright on it.

I know you request the article on zip or 3.25 diskettes, which it will be. Can I send the pictures and their title file on a CD? (I could easily put everything on a CD - article, endnotes, photos - if you rather have one thing to keep track of).

I am waiting for LACC to send me the one last photo I need before sending the package out. If, for some reason, I don't get it by Friday, I'll go ahead and send out the package, and follow-up with the last photo when I get back from vacation the following week, okay? Do you want a copy of the release from LACC for use of the photo or should I just keep that in my records?

Sound complete? If you want me to attach a copy of any of the files and forward it via e-mail (to start proof reading) let me know.

Brian

Hi, Brian,

Hi, Brian,

Just to let you know I will discuss this issue with the Executive Committee of the Alumni Association Board of Directors at our meeting on August 5th. I'll let you know what the thoughts of the Executive Committee members are on the issue of a tombstone.

By the way, I may not have mentioned my own situation. In April 2003 both of my parents died 10 days. When my sister and I went to the safety deposit we found copies of our original adoption papers. We always knew we were adopted and made to feel very special about it. I never had any desire to try to locate my birth family but my sister was interested a bit in her background. What a shock it was for me to see adoption papers with a birth name for me along with my birth other's name. It was amazing to me that a woman giving up a child she knew she could not keep would go ahead and give that child a name.

After spending almost three weeks in Seattle handling my parent's affairs, I came home and visited the local Catholic cemetery where my grandparents and other family members were buried. It was a shock to me to discover that my mother's youngest sister (only 48 years old) was actually in an unmarked grave. So I know how you feel.

I got the non-identifying background information on my birth parents and I with my birth's mother name I was able to match it up to one family in the 1930 census. I was then off and running with my genealogical research. Just since September I have been able to track my birth mother's family back to one man born in 1750 in St. Mary's County, MD. It's been great fun. I also discovered that my great-grandmother is also lying in an unmarked grave in St. Martin of Tour's Catholic Cemetery in Flaherty, KY. So I have at least two family members that I know of (birth and adopted) who are in unmarked graves. Tuberculosis was a great problem in the rural areas of Kentucky during the 1800's and I suspect that there are many other family members in unmarked graves. In two weeks I will be making my second trek to Kentucky to spend time with my birth mother. The last time I took my family with me so we did many touristy things in Louisville. This time it will definitely be the "Cemetery Tour" as I want to visit the two churches and cemeteries in Meade County, KY where most of the family members from the 1800's are buried and then the newer cemetery in Louisville where those born during the 1900's are buried. My children would never be interested in doing this so I will do it with my birth mother. It should be fun visiting all of those old cemeteries.

Anyway, I hope I haven't talked your ear off or told you this story before.

Subject: Re: Cale Headstone

Thanks for the consideration and the update. As someone who has researched my own ancestry for close to two decades, I know the importance that accompanies how, and in this case if, someone is

Hi, Brian,

remembered. I was quite taken aback standing at Dr. Cale's unmarked burial site; he was such a figure of importance to the profession as a whole, as well as the founder of LACC. I was surprised that, given his prominence at the time of his passing, that no one cared enough to honor him with even a simple marker. He and Linnie had been divorced for over a decade by the time of his death, and his second wife Astrid had been shot and killed a couple years earlier. I really do think that this would be an appropriate gesture, even moreso since Dr. Phillips is considering the possibility of restoring the naturopathic program at LACC. Charles was one of only 112 people that was able to obtain certification of his naturopathic credentials in 1909 from the BME. His legislative work formed the backbone of the 1922 Ballot Initiative that created the chiropractic profession in this state as a legally licensed entity. He had much opposition from the narrow-scope forces, yet he did not back down and that is the main reason we have (had?) such a broad scope of practice initially. He had the foresight to see a day when, like the medical and the osteopathic licensing boards, the chiropractic licensing board would have 2 classes of licensure: a physician and surgeon's license and a drugless practitioner licensre. That dream did not materialize and our profession is worse for it - with the licensing of naturopathic doctors by a separate naturopathic board - it appears the we have lost something great. The California Legislature has always maintained over the years that the BCE did have the authority to license naturopaths, they only needed to develop the licensing protocols that would satisfy the law.

Anyway, I could go on for pages. But suffice it to say, I hope that the alumni association understands the importance of commemorating the founder.

On a practical note, I also believe that it could be a very effective public relations story - both for the association as well as for the school and the profession.

Sincerely,

Brian

Hi, Brian,

I wanted you to know that your proposal did not make it to the floor for discussion on April 1st at the Board meeting. We got started late as the Alumni President got caught in traffic and a lot of the Board members had questions for Dr. Phillips after he gave his u-date on the Veterans Administration project. Your proposal is not a simple straight forward one and at the end as we were rushing to get done I pulled the proposal to present at the next meeting. I want it to have the best advantage that it can in getting accepted.

Thank you so much for checking on that. Perhaps the archivist at ISU will find something that indicates what the section numbers represent in the school's catalogues.

Can you tell me if any Terre Haute newspapers that cover this time period (1892-1900) are in the library's collection? If so, by any chance, are they indexed? I wonder if any wedding announcement was printed for Charles and Linnie (married June 25, 1895), or the birth of their son Guy on September 4, 1896. For that matter, if there was a newspaper, it probably would have reported on the school's commencement exercises on June 25, 1900.

As you're in the genealogy department would you know if there are any indexes to marriages and births from this time period available? Online or otherwise. What would the procedure be to obtain a copy of the marriage license, if possible at all?

I've researched my own family for over 20 years and find it fascinating (both the act of researching and the discoveries about ancestors). Interesting is that both Charles and Linnie have ancestors from my home state of NJ from the 1700s that were, geographically, not far from my own.

Thanks again for all your help.

Brian A. Smith, DC

= = = Original message = = =

Hello,

I think the yearly announcements and the William O. Lynch History of Indiana State Teachers College are two different sources. The book was published in 1946 and is, for the most part, a standard history. The appendix does list names of early graduates but is very selective. For example, Section I is graduates from 1891--1900 who became members of the faculty of Indiana State; Section II is graduates 1891--1900 who became teachers in the Normal Training School, and Section III is

graduates 1891--1900 who held instructional, administrative, or other positions in normal schools or universities. Other sections list graduates who trained for teaching but entered medicine, law, ministry, business, and even farming. Section VI listed graduates who entered medicine, and I expected to find the Cales there, but they were not listed.

Subject: Charles Cale

Dear Dr. Phillips,

To refresh your memory, I am the person who approached LACC regarding the possibility of obtaining funding for a grave marker for Charles Cale as he is interred in an unmarked grave in Inglewood Cemetery. While I am still interested in pursuing that, and have obtained a letter of no objection from the descendants of his (presumably) last wife Astrid, that is not the main reason for this e-mail.

The reason for this e-mail, though related obliquely to the above, is the following: I would like to know if you have any contact information for any person that would have known Charles and Linnie's children: Earl, Ruth and Guy? As I understand it, all 3 were involved in the chiropractic profession: Ruth practiced with Linnie, Earl had a chiropractic supply business in Glendale, and I am not sure what capacity Guy was involved in.

I would assume that people affiliated with LACC in the 1960s would have known at least one of the children. The only people I know of that were were affiliated with the school are Paul Schultz, DC

Brian,

who passed away several years ago and JG Anderson, DC who, I think, also passed away some time back.

Do you know of anyone else who may have known the Cale children? I would be most appreciative for any assistance you may be able to provide.

As an aside: I am currently writing an article the deals with Charles and his wife Astrid Reed and their involvement with the profession, including 3 generations of chiropractic descendants.

Sincerely,

Brian A. Smith, DC

Hi, Brian:

Hi, Brian:

I just spoke to Dr. J. G. Anderson. He would be willing to talk to you about his experiences in chiropractic education. His home phone number in Northridge is (818) 349-5418. I am sure he would enjoy hearing from a former student who remembers him. It might be easier for you to contact him than the other way around. I suspect your schedule is a little busier than his is these days.

Best wishes,
Sheila Hanes

Subject: RE: Charles Cale desc.

Hi, Brian:

I just spoke to J. G. Anderson and he said he knew the Cale children only by name and occasionally saw them on campus but did not know them as individuals at all. He said that one of them might show up on campus when they had a ceremony but that was it. I get the impression that J. G. would love to talk about his memories but unfortunately he does not know anything about the Cale children.

Last week I spoke to another alumnus who is writing an article on Henry Higley. He said that Lorraine Haynes Cummings was not willing to speak to him about her Uncle Henry. All he was looking for was some personal information on Dr. Higley since none seemed to be available (i.e. he liked ice cream, he went for a walk every night, etc.). She wasn't even willing to talk about her uncle as a person, let alone as a researcher, scholar, and academic. I am assuming that if she refused to be interviewed about her uncle that she would not want to talk about the Cale's.

I wish I could help but there just aren't that many people around from that era anymore. I didn't start LACC until 1973 so I was a bit behind the time frame you are interested in.

Hi Brian,

Hi Brian,

The only photo I have of Astrid is attached ("Astrid.jpeg"), and it's only 100 dpi. :-)

I suggest you should also be communicating with Lawrence Siordia, M.D., D.C. (copied on this note), who's done a bunch of digging in death records and census records. Additionally, he has access to the Huntington Library (which might be a help).

See you in June. :-)

Joe

In a message dated 9/23/04 9:32:29 AM, doctorsmith@earthlink.net writes:

Thanks Joe,

When you get a chance, can you check to see the number of photographs that Bob Reed sent to you? I have one of his father, Herbert J. and, in theory, I have at least two others - one Thanksgiving 1935 Reed family photo and the other was Astrid teaching at Cale's school. The latter two I can not locate - for some reason when I saved Bob's e-mails - the pictures attached did not save as well. I thought there were more he sent. I'll continue hunting for them on my computer. My biggest fear is that they're with the records I extracted from the CA BCE's minutes and logs for the first 6 years...I can't find those either!

An interesting coincidence? The year that LACC suspended operations (1914) is the same year that CULP opened where Charles was a teacher, and perhaps Dean.

As it turns out the article I'm writing is more about Charles and his time from 1925 on, of which the Reeds play a large part, but after 1938 the amount of information on the Reeds is somewhat limited; I'm reworking it so there aren't 25 pages detailing the Reed-Cale family until 1938; followed by one paragraph for 1939 to the present!

Sure will be at the History convention ... in fact, probably heading down to LACC shortly to see what, if anything in the Registrar's office or the library gives a list of students/graduates and/or faculty for Cale Chiro and Naturo schools for the 1927-1930 period. Though the schools were incorporated 2 years apart, they were started at the same time - 1925. As in other schools, the ND was available only to those who were taking the DC pgm and wanted to invest the 200 hours as well as to other graduate DCs - a post-graduate course...probably a forerunner of today's programs. That might explain why Astrid could get a DC license and list her college as CCHaturo...a DC is implied....though it's charter in no way would satisfy the BCE's requirements...no mention of chiro in the charter at all.

I hope your summer is going well. Were you ever able to obtain the licensing information from the State Archives?

In reviewing the information that I have I noticed the prevalence of Terre Haute. Linnie and Charles Cale were married there in 1895, both having been students at the Indiana State Normal School. Your grandfather's second wife Emma was from Terre Haute as well. May be only a coincidence but, then again, maybe the Reffling, Cale and Facemire (as well as Emma's) families were acquainted before the move to LA. It wouldn't be uncommon as someone would move to LA and remain in contact with friends and family back home, thus being a connection in LA when others decided to move.

Hi Brian...

Thanks for your interest here. Yes, summer is going well - just got back from a week of camping at June Lake, and three weeks ago from a driving trip to Montana. And yes, thanks, I did get the chiropractic licensing information on Astrid, Herbert (dad), Arthur, Herbert (brother).

Yes, Emma Anna Dodson was a spinster school teacher from Terre Haute. I don't know how Axel met her, but they were married on December 24, 1938. He died in Terre Haute on November 18, 1941. Why he was there then, I don't know. He had always been a custom tailor by trade. Emma lived in L.A. after Axel's death, until she died in 1959. Why did she stay here? I don't know. I'm sure many of her friends (or relatives) were still in Terre Haute.

Axel was in L.A. much of 1940 & 1941. I have many photos of him with my family during this time. I don't know of any chiropractic connection he or Emma would have had except for Astrid, my father Herbert, brother Herbert, and uncle Arthur.

(I presume Facemire was Lennie Cale's maiden name.)

Subject: Journal

Hi John,

Hope your holidays were enjoyable. I am finishing up the Charles Cale article and hope to have it off to you within two weeks. I checked the latest issue for guidelines to submit photographs as jpeg images (rather than photographs) but could find none. I've standardized the jpegs for document quality. I'll submit those in a separate file, along with another file that gives the title for each, as well as a credit (most refer directly to endnotes of the article itself) for each; unless you prefer another method. I could put the credits in a separate file to be included as a separate section "Image credits" where it would say "Figure 1: 1880 US Census, Los Angeles County....; Figure 2: Indiana State Normal School,....." Let me know.

I have a collection of The Chiropractic Family Physician from November 1978 to January 1981. In many there appears a biographical sketch about one or two DC's that were instrumental in the founding of the ACA Council on Diagnosis and Internal Disorders. If I can get reprint permission, would you think they could be used for the journal? They are quite small and could easily be used to fill space (I would guess 1/2 to 1 page each). There's probably 10 or 12 bios.

Will you be heading to LA for the conference?

The subject of my article, Dr. Charles Cale has been in an unmarked grave since 1938. I brought this to the school's attention a couple years ago and it appears that a gravestone will be placed in March. It was just ordered about a week ago.

Brian

Hello Joe...

I'm planning to do some research in the LACC archives and special collections over the next month or so. Is there any record or group of records that are there that you haven't gone through? Sheila mentioned that Dr. Nelson's collection is on campus now and I think that has yet to be viewed. Anything that you need to have checked? et me know.

Brian

= = = Original message = = =

Hi Sheila,

Here's all I have:

1968 (Sept): Chirogram [35(9)] includes:

-AV Nilsson, D.C. notes Linnie A. Cale, D.O., D.C.~~~s death ~~~One of our founders passes~~~ (p. 227):

Recently one of California~~~s chiropractic pioneers, Dr. Linnie A. Cale,

passed away at the age of 94. With her peaceful demise, a long, full, and remarkably useful life came to its mundane termination.

-photo of Linnie A. Cale (p. 228)

Since I don't have the September 1968 issue of the Chirogram in my collection, I don't know if burial details were given. You'll want to check on

this in the Rare Books Room in the LACC library. As for death certificates, Lawrence Siordia (copied on this note) is expert in that department.

BTW, I'll bet you meant Carl V. Schultz, M.D., LL.B., rather than "Charles Schultz" :-)

Glad you liked the PowerPoint - but did I send you one on campus or on early So. Cal. chirohistory?

Joe

Dear Brian,

Dear Brian,

Hope you had a good time on vacation. Yes, I received your submission but have not reviewed it. After the others have gone over it and we send it to the printer to set up, you can make those and any other small changes that you wish. Won't be any problem.

Thanks for all you do. You always do it well.

John

Subject: Minor changes?

Hi John,

Hope you have received my submission by now as it was sent to you last Friday. If not, expect it within a couple days.

Question: not that I've returned from my vacation, I find I may have need to modify/update the article... very minor. The updates are: Charles Cale's middle name, the "A" stands for Augustus (the change would be in the title, perhaps the body but not necessary); his son Paul "E." is Paul Edward and he was buried in Rosedale Cemetery in LA. Should I do a rewrite or are these minor enough that it is not necessary?

Thanks.

Brian
